KUHL SOLUTIONS TO CLIENT PROBLEMS

KUHL CASE #35

Upgrading a Chimney

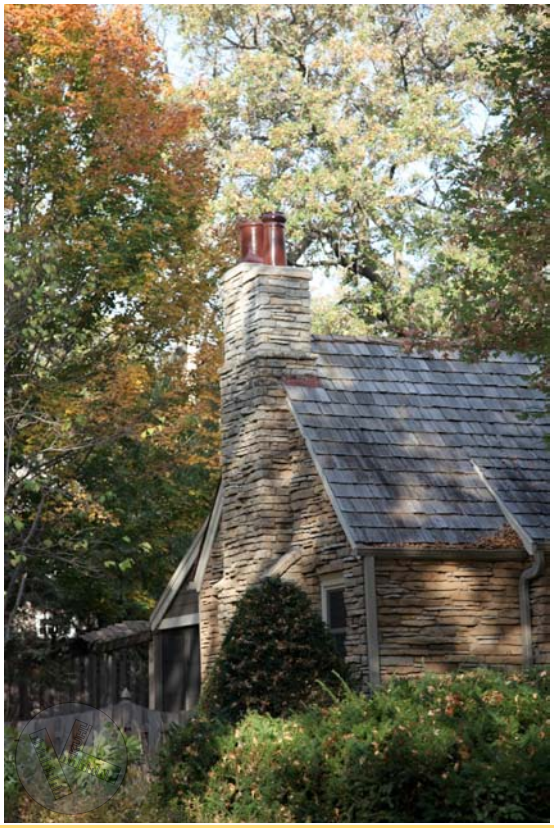
Repair Your Chimney or Enhance the Look of Your Exterior

The Problem

Your chimney is failing, it looks like this, and someone wants $3200 to fix it. Ouch.

The Solution

Hire someone with experienced designers on staff who know the difference between concepts like Cotswold and Tudor. It would have been easy enough to simply fix this chimney; we do that all the time. But we really like making homes look better so we floated the idea of some glazed chimney pots. It turns out that our estimate for all of the work was $107.00 higher than the other bid our clients received. And their proposal didn't include killer chimney pots.



Yummy details are Kuhl.
